QUANTITATIVE TRADER (EXPERIENCED)

Location: Seoul, NY, Remote | Level: Experienced Professional
Functions: Quant/Strats | Schedule Type: Full Time, Part Time

ABOUT ENTROPY TRADING GROUP

Entropy Trading Group is a data-driven high frequency trading firm based in New York and Seoul. We are a leader in developing quantitative and technological solutions to cryptocurrency market. Working side by side with the firm's engineering and sales professionals, our quantitative traders identify market opportunities to generate an absolute return.

ABOUT OUR ROLES IN QUANTITATIVE TRADING

Our core value is data mining and strategy back-testing to achieve consistent performance independent from the market condition. This is a dynamic, entrepreneurial team with a passion for the markets, with individuals who thrive in fast-paced, changing environments and are energized by 24-hr dynamics of the market.

JOB RESPONSIBILITIES

The experienced Quantitative Trader will be responsible for:

- Building profitable trading strategies by leveraging ETG's advanced trading and execution platforms, high-quality historical data, high-frequency trading simulator, and very low exchange fees

- Overseeing portfolio performance to ensure stable deployment of trading strategies

QUALIFICATIONS

The ideal candidate will have:

- Consistently profitable crypto-asset trading strategies with a proven track record

- Experience at a proprietary trading firm, hedge fund or bank

- Strong academic background and excellent problem-solving skills

- Self-motivated, hardworking, creative and competitive personality
